PROFILE

Computer Science graduate (Hope Enterprise University College, 2026) and full-stack developer who builds complete web and mobile applications, from database and API design to responsive interfaces. Proficient in both JavaScript and .NET ecosystems, with internship experience at the Ethiopian Chamber of Commerce and Sectoral Association. Reliable, communicative and self-driven, open to freelance and remote work.

EXPERIENCE

Software Development Intern
Ethiopian Chamber of Commerce and Sectoral Association | 2025 | 2 months

- Built and maintained web application features with modern JavaScript frameworks alongside senior developers.
- Used Git and GitHub for version control and documented technical processes.
- Provided IT support and assisted with network troubleshooting and configuration.
- Collaborated with cross-functional teams following professional development workflows.

PROJECTS

Training Management System
University project | 2025

- Manages training schedules, participants and progress tracking.
- React.js, Node.js/NestJS, PostgreSQL; JWT authentication, role-based access, REST APIs.

E-Commerce Platform
Personal project | 2025

- Product listings, cart, checkout, payment flow and inventory management.
- Angular, ASP.NET Core, MongoDB; secure authentication.

Railway Tracker System
Personal project

- Real-time application to monitor train locations and schedules. More projects on GitHub: github.com/codewithyusa

Angular & .NET Capstone
University capstone | 2025

- Angular/TypeScript frontend, ASP.NET Core MVC backend, PostgreSQL; APIs tested with Postman.

Odin Project: JavaScript
Self-study | 2026

- Full JavaScript path: OOP, ES6 modules, Webpack, data structures & algorithms, async/await, APIs, testing.
- Built Library, Tic Tac Toe, Todo List, Weather App and Battleship in vanilla JavaScript.

Odin Project: React
Self-study | 2026

- Full React path: components, state, effects, React Router, Context API, reducers, memoization, unit tests with mocking.
- Built CV Application, Memory Card and Shopping Cart.

Odin Project: NodeJS & Full-Stack
Self-study | 2026

- Express.js apps with PostgreSQL and Prisma ORM; JWT authentication and REST API security.
- Built Members Only, File Uploader, Blog API, Messaging App and Odin-Book (social network).

SKILLS

Frontend
React.js, Angular, TypeScript, JavaScript, HTML5, CSS3

Backend
Node.js, NestJS, Express.js, ASP.NET Core, C#, REST APIs

Mobile
Flutter, React Native

Databases
PostgreSQL, MongoDB, SQL, Prisma

Auth & Security
JWT, RBAC

Tools
Git, GitHub, Postman, VS Code, Linux

Learning
Python, Machine Learning basics, Data Analysis, Cybersecurity basics

EDUCATION

BSc in Software Engineering / Computer Science
Hope Enterprise University College | 2026
OOP, Data Structures & Algorithms, Advanced Programming, Software Engineering, Database Systems. ICT Club member.

TRAINING

Qiyas Software Development
2026, ongoing
Angular, .NET/C#, Flutter, PostgreSQL, REST APIs, JWT/RBAC, Git.

Full-Stack Web Development
Addis Ababa University | 2026
Modern full-stack concepts, tools and best practices.

Mobile App Development
Addis Ababa University | 2026
Cross-platform development with Flutter and React Native.
